

North West Paediatric Allergy Network May 2018

Website

- Can all members include the allergy website on all clinic letters and hospital websites?

Priorities for this year includes:

- Ensuring data is entered into the Network Database
- Update of self assessment against standards
- Working to improve care for children with CMPA
- Group dietetic sessions; developing resources and supporting implementation
- Transition to adult services

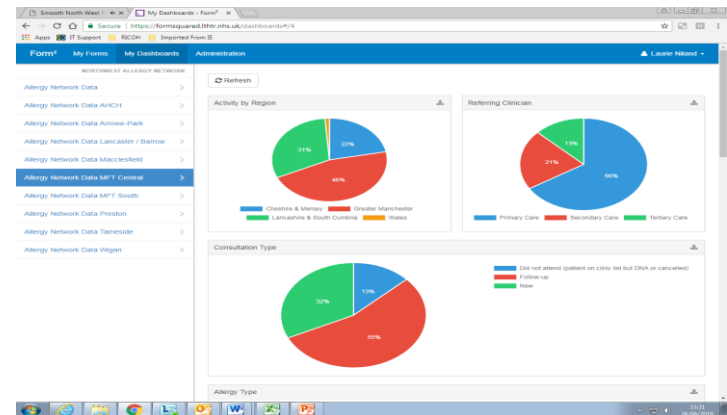

Our members

Our network is very lucky to work in partnership with a number of parents and support groups. It was wonderful to mark the significant contribution of Nick Stafford by Dena Marshall, Chief Executive of the Royal Manchester Children's Hospital.

The network congratulated Colin Lumsden on his Chair of Medical Education at the University of Manchester.

Dashboard: have you seen your data?

- All the data that you put into the network database is now shown as a dashboard.
- Have you seen this?
 - Log into the database (<https://formsquared.lthtr.nhs.uk/>)
 - Click on the my dashboard menu on the top

- Not inputting data and would like to? Contact us
